Technical Brochure

Black Liqui-Urea 26

Non acidifying, concentrated liquid nitrogen suitable for a wide range of applications. Fortified with Fulvic acid and patented Amino Acids.

Some of the benefits include:-

- Neutral pH
- Efficient assimilation into plant
- Stabilized nitrogen source
- Minimal loss to volatilization and leaching
- Easy to blend with nutritional products to customize balance.

TYPICAL ANALYSIS

	g/L	% W/V
Nitrogen (N)	260	26
Fulvic Acid, Amino Acids		

pH 7.1
SG 1.140

APPLICATION

Foliar	Rate/Ha	Water
Broadacre	10-20L	50-100L
Horticulture	5-15L/Ha	100-200L
Furrow Injection	Rate/Ha	Water
Broadacre	10-25L/Ha	30-50L
Fertigation	Rate/Ha	Water
Horticulture	20-30L/Ha	Variable
Viticulture	5-20L/Ha	Variable

Important: - Do not foliar spray stone-fruit. Do not foliar spray any crop at the start of and during flowering

PACKAGING

Bulk, 1000L, 200L, 20L, 10L
