Technical Brochure

HI-POTASSIUM C30

A high concentrate complex liquid compound with amino acids, suitable for foliar, fertigation and furrow injection

Some of the benefits include:-

- Strengthens plant tissue cells
- Increases the size of kernels, seeds, fruit and tubers
- Improves grain fill
- Increases protein synthesis
- Translocates plant sugars

TYPICAL ANALYSIS	G/L	% W/V
Potassium (K)	300	30
Potassium Fulvate	67	6.7

APPLICATION

Foliar Application	Rate/Ha	Water
Broadacre	1-3L	40-100L
Horticulture	1-5L	200-1500L
Orchards (stone fruit excluded)	1-5L	600L-1500L
Viticulture	2-5L	200-1500L
Furrow Injection	Rate/Ha	Water
Broadacre	5-10L	Various
Fertigation	Rate/Ha	Water
Horticulture, Viticulture, Orchards	5-10L	Variable
Pasture	3-10L	Variable

Important:- Do not foliar spray stone-fruit. Do not foliar spray any crop at the start of and during flowering

PACKAGING

20Lt, 200Lt and 1000Lt
