

✓ Soil Applied

Technical Brochure

SuperGyp 15-11

A high source of micronized natural gypsum combined with amino acids. Flood jet application.

Some of the benefits include:-

- More convenient and easier to apply than powdered gypsum.
- A quick source of calcium and sulphur.
- Protein builder for canolla/cereals and pastures.

TYPICAL ANALYSIS	g/L	% W/V
Calcium	150	15
Sulphur	111	11

pH 7.65
S.G 1.39

APPLICATION

Application	Rate/Ha	Water
Boomspray: Soil Application (Coarse Spray Applicator)	5-30L/Ha	Dilute 20L SuperGyp with 30L water to allow application by boomspray
